

Erasmus for Young Entrepreneurs

On-the-job training abroad
with an experienced
entrepreneur

Young
Entrepreneur In
Motion is for
you!

YEIM Project startsii

Young Entrepreneurs in Motion project (YEIM) has been designed to promote European young entrepreneurship, especially within ICT subsector (SMEs providers of IT services/products for other SMEs). YEIM will be opened to all entrepreneurs but puts special attention to the promotion of entrepreneurship in this area by helping new and already consolidated entrepreneurs to enrich their knowledge and work experience through transnational mobility actions and networking experiences. The ultimate goal is to enhance entrepreneurship and the internationalisation and competitiveness of SMEs

YEIM's aims

YEIM will aim to engage at least 1.200 entrepreneurs in EYE programme and will develop the YEIM platform to offer additional support services for entrepreneurs. The platform will count with the following spaces: registration area, training area (with the training materials developed for the mentoring course addressed to HEs and for the pre-departure induction course for NEs); search for funding area (space for searching public/private funding); a

Financial Opportunity Diagnosis tool; a RSS system alert with funding opportunities; an internal communication area (to exchange comments, opinions between HEs/NEs), Business Cooperation area (to disseminate EEN and other cooperation channels) and Opportunities for start-ups area (a space to disseminate the resources that IOs involved in the project can give for the NEs). YEIM consortium is formed by 10 entities from 8 different countries.

Sessions

Erasmus for Young Entrepreneurs

Training Sessions 2017YEIM partners as all new IOs in the programme, as well as other IOs that have previously participated in Cycles 1-6, were required to attend one of the 3 training sessions that took place 09.00-17.00, on 24 February 2017,

19th EYE Network Meeting

This event focused on increasing the peer-to-peer learning amongst them. A big emphasis was placed on the networking activities at will facilitate cross-IO and cross-EP collaboration.

Erasmus For Young Entrepreneurs Programme

It is an Exchange program that offers entrepreneurs the opportunity to work in another EU country and learn from a businessman experienced during a period between 1-6 months. The stay is financed by the European Union.
